

CONSULTANT PROFILE

Consultant Cardiologist

Background

Dr Clesham is a consultant cardiologist with a special interest in invasive and interventional cardiology. This includes diagnostic angiograms and coronary stenting procedures. In his general cardiology clinics he sees patients with chest pain, heart failure, arrhythmias, valve disease and for cardiovascular risk assessment.

Education

After graduating from Cambridge University, Dr Clesham completed his clinical training at the Oxford University Medical School. His registrar training in cardiology was initially at the Hammersmith Hospital in London and subsequently at Papworth Hospital in Cambridge. In between these two posts he was awarded a Medical Research Council Training Fellowship for research into molecular aspects of cardiovascular disease. This period of research resulted in a PhD degree being awarded from Cambridge University.

Royal College of Physicians ~ MRCP 1990
