

CONSULTANT PROFILE

Consultant Interventional Cardiologist

Background:

Dr Nicholas Robinson graduated in medical sciences from Cambridge University. He then went on to complete his clinical studies at St. Thomas' Hospital in London and then graduated from Cambridge University. Academic achievements include becoming a Member of the Royal College of Physicians (UK) in 1990 and subsequently a Fellow in 2007. During his research he was awarded a British Heart Foundation Research Fellowship in 1994 and then a postgraduate MD thesis by Cambridge University for research into heart disease 1996. He has written 30 peer reviewed papers in basic science and clinical cardiology.

Training Profile:

His medical training started at St. Thomas' Hospital and then subsequently as cardiology registrar at King's College Hospital. He was appointed senior registrar and clinical lecturer at St. Bartholomew's and the London Chest Hospitals where he had a high volume training in angiography, balloon angioplasty and stent insertion.

Special Interests:

Dr Robinson is highly experienced in diagnostic angiography and subsequent stent insertion. He performs all the stenting procedures for patients in Essex now at the Essex Cardiothoracic Centre. He is an active member and presenter at the British Cardiac Intervention Society. He has researched and published widely on the use of stents for the treatment of coronary disease.

In addition, his specialist interests include screening for coronary disease, assessing cardiac risk, non-invasive CT scanning and calcium scoring of coronary arteries.

General cardiology interests include management of lipids abnormalities, coronary risk assessment, arrhythmias, heart failure and heart valve disease.
