

Ophthalmic Referral Guide

2021

**The Berkshire
Independent Hospital**

Part of Ramsay Health Care

Welcome

Located in Berkshire, The Berkshire Independent Hospital opened in 1993 and has provided first class healthcare for patients with health insurance, for NHS patients exercising choice through the e-Referral System or for those patients wishing to self-fund their treatment. By investing in the latest advanced medical technology, the hospital offers a wide range of treatments and services and cares for patients from outpatient consultation and diagnostics through to surgical treatment and rehabilitation.

The Berkshire Independent Hospital offers regular outpatient clinics with Consultant Ophthalmologists in dedicated ophthalmic consulting rooms supported by a team of Orthoptists and onsite visual fields assessment. Should surgery be required, we have fully equipped operating theatres, comfortable day case facilities and en-suite patient bedrooms enabling us to care for your patients from diagnosis through to treatment for a variety of eye conditions. Our Consultant Ophthalmologists also have access to other specialists within the hospital to work with and refer to as appropriate.

This guide contains information on the referral process, quality outcomes and how we can help support you in your practices. We hope you will find the information useful in helping advise and care for your patients.

Thank you for continuing to entrust us with the care of your patients.

Key Facilities

Key Facilities at The Berkshire Independent Hospital:

- 35 en-suite bedrooms
- 3 operating theatres
- Full diagnostics including ultrasound, X-Ray, MRI and DEXA
- CQC Registered Good
- 11 outpatient rooms including dedicated ophthalmics and treatment rooms
- Physiotherapy department with 6 treatment rooms and a gym

CQC rated The Berkshire Independent Hospital - Good

Quality Outcomes

Patient feedback

Our most recent patient satisfaction survey covering all aspects of our service and care has again shown that we are, on most occasions, exceeding our patients' expectations.

Our Focus on Quality

Patient satisfaction survey

Results taken from Ramsay Health Care Patient Satisfaction Survey (Full year to 2020), and analysed independently by Qa Research:

Nurse to patient average ratio

Nurse to patient ratio is assessed and changed daily to match the acuity of the patients. The average number of qualified staff to adult patients is 1:5 on the ward.

Infection control

The Berkshire Independent Hospital maintains strict and effective infection control measures with NO reported MRSA bacteraemia in 6 years.

Consultant Ophthalmologists

at The Berkshire Independent Hospital

Miss Annette Bacon

MA, MB BChir, FRCS, FRCOphth

Consultant Ophthalmologist at The Berkshire Independent Hospital, specialising in cataract and eyelid surgery.

Clinical Interests:

Microincision cataract surgery with mono focal, multifocal, or toric lens implants. Correction of ptosis and other lid malpositions, diagnosis and removal of periocular skin cancers and benign lesions of the eyelid.

Mr Peter Constable

BM, BCh, MA, MD, FRCOphth

Consultant Ophthalmologist at The Berkshire Independent Hospital who specialises in micro-incision cataract surgery and glaucoma.

Mr Constable set up and runs a dedicated day-case cataract service in West Berkshire and has extensive experience in micro-incision cataract surgery using monofocal and premium toric and multifocal lens implants under topical (no needle) local anaesthetic. He also specialises in the diagnosis and treatment of all types of glaucoma including laser and surgical treatment.

Mr Molham Entabi

MS, FRCSEd, MRCOphth

Consultant Ophthalmologist at The Berkshire Independent Hospital who specialises in medical retina.

Clinical Interests:

Cataract surgery using standard and premium (multifocal and toric) intraocular lenses, poor vision following cataract surgery, age-related macular degeneration (AMD), diabetic retinopathy, retinal vascular disease, intravitreal injections, diagnosis of unexplained reduced central vision, minor eyelid surgery and general ophthalmology.

Mr Sumith Perera

MBBS, DCEH(Lon), MRCOphth, FRCS, Cert.LRS

Mr Sumith Perera is a Consultant Ophthalmologist at The Berkshire Independent Hospital, who specialises in cataract and refractive surgery.

Clinical Interests:

Cataract removal surgery, micro incision cataract surgery with intra ocular lens implant, monofocal, multifocal and toric lens implants, laser cataract and corneal refractive surgery, dry eyes and blepharitis.

Referring patients to The Berkshire Independent Hospital

The Ramsay Health Care online Patient Referral system has been designed to allow you to refer private patients easily, quickly and securely to your Ramsay hospital of choice. As well as being quick and easy to complete, using the online system will also help reduce your postage costs and speed up the referral process - all in a secure, online environment.

To make a private referral, simply visit ramsayhealth.co.uk/patientreferral and complete the short form. The Berkshire Independent Hospital is equipped to receive both Private and NHS referrals. To refer NHS patients, please use the Electronic Referral System (ERS). ERS will provide all the required information regarding each Consultant and their availability.

Should you have any further queries, please contact your dedicated GP Liaison Officer or Private Patient Manager who will be happy to help.

Julie Deadfield - **07387 262 526** | julie.deadfield@ramsayhealth.co.uk

Andrew Capel - **0118 902 8147** | andrew.capel@ramsayhealth.co.uk

Making a **private referral online**

1 In your browser go to ramsayhealth.co.uk/patientreferral. Login with Username: **Ramsayonline** and Password: **Ramsaygp**

2 Select the Ramsay hospital that you wish to send the referral to from the drop-down list

3 Attach a copy of the referral letter by clicking on 'Select' and adding the file or copy and paste it directly into the form

4 Complete the remainder of the form noting the mandatory fields marked with an asterisk
If the consultant is unknown please select 'specialty referral only'

5 Once you have completed the form, press the 'Submit' button to send the referral directly to the Ramsay hospital

6 You see an immediate confirmation that the referral has been received (also sent by secure email) and the hospital processes the referral

Self-pay patients

Wherever possible, self-paying patients are offered a Total Care package price following initial consultation. This all-inclusive price includes all nursing and medical care, the hospital stay, consultants' fees and follow up consultations, giving patients the peace of mind of knowing that everything they need is covered.

Medical insurance company policies

Rules regarding the accepted referral route for all conditions, including ophthalmic ones, are subject to change. It is therefore strongly recommended that, in line with Ramsay policy, all proposed treatment is pre-authorized in advance by both patients and the hospital. The respective insurer will then confirm if a separate GP referral is required or if an Optometrist referral is sufficient.

Bupa: Bupa will accept a direct referral from an Optometrist for cataract surgery only. All other ophthalmic conditions continue to require a GP referral.

AXA PPP: AXA PPP will accept a direct referral from an Optometrist for cataract surgery. For all other ophthalmic conditions a GP referral is required.

Aviva: Aviva will accept referrals to specialists from Opticians and Optometrists rather than requiring a GP referral. In these cases Aviva will often ask for sight of the referral letter from the Optometrist to ensure sight correction surgery using laser or lens exchange (which are standard policy exclusions) are not being recommended.

Vitality Health: Vitality Health allow referral direct from Opticians / Optometrists and should not require a separate GP referral.

WPA: Position partly depends upon the length of time the patient has been a member. For longer term members a direct referral from an Optometrist may be acceptable, but for others a GP referral will still be required. Pre-authorization on a case-by-case basis is therefore strongly recommended.

Cigna: Cigna will accept referrals from an Optometrist for acute conditions such as cataract surgery and chronic conditions such as glaucoma.

Why refer privately

More and more people now have private medical insurance or are happy to pay for their treatment themselves in order to benefit from rapid access to treatment and return to their normal lifestyle as quickly as possible.

Benefits of referring privately

- Fast access to diagnostic tests and procedures
- Choice of consultant
- Guaranteed consultant care for high quality outcomes
- Little or no wait for surgery
- Premium care private rooms with en-suite facilities
- For procedures that fall outside of current NHS funded guidelines

Benefits of referring to Ramsay Health Care

- Appointments available with no waiting lists, within 72 hours of referral
- Same day consultations for urgent referrals
- Leading Ophthalmic Surgeons
- Effective infection control
- Full aftercare with 24hr nurse support
- Secure online referral system
- Accepted by all major private medical insurers
- Affordable all-inclusive packages for self-funding patients
- Open visiting hours and free car parking

NHS Services

As qualified providers of NHS Services, Ramsay Hospitals are able to accept Choose and Book (e-RS) referrals. Local CCG referral pathways should be followed, whilst respecting patient choice.

Please offer your patient a choice of provider at the time of referral, including Ramsay Hospitals. This is particularly important where referrals need to be directed via local NHS triage centres.

Focus on cataracts

Cataract removal surgery is currently being restricted by the NHS in some areas of the UK to those with very advanced symptoms and waiting lists are becoming significantly longer. As a daycase procedure, often performed under local anaesthetic, cataract surgery is now more affordable than you may think, bringing private healthcare within the reach of many more people.

All of this means that at Ramsay Health Care we have noticed a significant increase in patients choosing to pay for their own cataract treatment in order to improve their quality of life more rapidly than NHS waiting times, and service restrictions allow.

Opting for private treatment at one of our hospitals offers people:

- The opportunity for cataract surgery even if their vision is better than the current level required for NHS surgery. We offer surgery when a cataract starts interfering with daily activities such as reading, watching TV or driving.
- A one-stop service with assessment by a consultant eye surgeon and measurement for the new lens at the same visit saving time and inconvenience.
- Surgery will be offered much sooner, often within a week of consultation.
- Patients will be reviewed by their consultant after the operation, and can discuss operating on the second eye too without the need for further waiting.
- A wider choice of lens implants (which may not be automatically available on the NHS) may be available so we can offer the most appropriate treatment to individual patients.
- Dedicated daycase facilities with the option for surgery to be performed under local or general anaesthetic.

Package prices range from £2,600 per eye.

Prices vary depending upon the selection of implant and anaesthesia but are a Total Care package price which includes the hospital and consultants' fees, as well as the cost of lens implant and follow-up consultation. The initial consultation and any associated diagnostic eye tests are not part of the surgical package price.
