Referring patients to Rivers Hospital

The Ramsay Health Care online portal has been designed to enable you to refer private patients easily, quickly and securely to their Ramsay hospital of choice.

To make a private referral, visit ramsayhealth.co.uk/patientreferral and complete the short form.

Rivers Hospital is able to receive self-funding, medically insured and NHS referrals. To refer an NHS patient, please use the e-Referral Service (e-RS).

Should you have any queries, please contact your dedicated Private Outpatient Booking Team who will be happy to help:

Private Outpatient Booking Team:

01279 602 675 / 01279 602 213 | Rivers.Reception@ramsayhealth.co.uk

Simply send a referral letter via our secure online system.

In the meantime your patient can contact Rivers Hospital directly to arrange a convenient appointment.

If your patient does not contact us, we will contact them to arrange an appointment using the details provided on the referral.

Acceptance Criteria for NHS Referrals at Ramsay Health Care UK

Standard Acceptance Criteria

Under the Standard Acute Contract that Ramsay Health Care UK hold with the NHS, our acceptance criteria for accepting NHS patients has been updated.

The only exclusions are:

- Patients under the age of 18 years of age.
- Patients with BMI > 43.9
- A patient with an incapacitating disease that is a constant threat to life.
- On the Mental Health Register with acute mental health condition.

Please include NHS numbers and confirm all demographic details of the patient including full name, address and daytime telephone numbers including any mobile. Please ensure you include or send any relevant X-Rays, scans, test results, BMI, current medication, past medical history and any known drug allergies.

Our services are delivered at NHS tariff with no additional costs to patients or CCGs.

Free Hospital Parking.

NHS Co-Ordinators: 01279 602 672

E-mail: riversnhsco-ordinators@ramsayhealth.co.uk

Find us on e-Referral Service, by searching for the service required.

Diagnostic Services Available at Rivers Hospital

Our service is run by a friendly team of experienced, qualified radiographers. Images are reported by a specialist consultant radiologist and sent directly to the GP or referring healthcare professional, usually within 48 hours.

Radiology appointments can only be issued to the patient on receipt of a private medical referral from the GP. The radiology form must be completed for all private and self pay radiology referrals and sent by secure email to **rivers.imaging@ramsayhealth.co.uk**

Radiology Services available at Rivers Hospital	
Diagnostic	Min Age
CT	7yrs+
CT (guided pain management)	18yrs +
CT Calcium Scoring	Men 40yrs+ Women 45yrs+
U/S (non-interventional)	0yrs+
U/S (interventional)	5yrs+
Mammography (screening)	40yrs+
MRI	7yrs+
X-Ray	0yrs+
DEXA	18yrs+

You can download a copy of Rivers Hospital referral form here:
ramsayhealth.co.uk/hospitals/rivers-hospital/health-professionals/resources

*services listed above are for private and self pay patients.

You said, we listened...

Making it easier to refer radiology patients

Ramsay Health Care's new online radiology referral form has been designed to allow you to refer patients easily, quickly and securely to your Ramsay hospital of choice, for all modalities via a user-friendly interface.

Visit: ramsayhealth.co.uk/health-professionals/radiology-referrals or speak to your dedicated Business Relations Manager for access to the referral form.

Physiotherapy at Rivers Hospital

Rivers Hospital Physiotherapy Department is staffed by professional and experienced clinical Chartered Physiotherapists. We work to Physiotherapy Chartered Society Standards supporting best practice and will strive to provide the best in patient care.

The department contains seven spacious treatment rooms and a large, fully equipped gym. All physiotherapy patients have a treatment plan established on assessment by their physiotherapist, which is regularly reviewed during the course of physiotherapy treatment.

We aim to see urgent referrals within 48 hours of referral and non urgent referrals within five working days. Referrals are accepted from GPs and Allied Professionals. Self paying patients may refer themselves for physiotherapy. Packages of care can be provided for patients with long term rehabilitation requirements.

Referrals can be emailed to **rivers.physio@ramsayhealth.co.uk** or complete Online Private Referral Form.

Physiotherapy Services Includes:

- Musculoskeletal problems including back/neck pain
- Sports and soft tissue injuries
- Shockwave
- Management of headaches and migraines
- Hand therapy
- Acupuncture
- Oncology and post-operative breast surgery rehabilitation
- Women's health/continence
- Pregnancy related musculoskeletal pain
- New mother's physiotherapy check
- Paediatric orthopaedic and respiratory problems
- Phototherapy
- Neurological physiotherapy
- Vestibular rehabilitation
- Post surgical rehabilitation
- Sports rehabilitation

Children and Young People at Rivers Hospital

Rivers Hospital offers a range of paediatric services including diagnosis, acute and complex medical care, surgery and support for children and teenagers up to 18 years.

Consultant paediatricians work in both inpatient and outpatient settings and are supported by a team of nurses and wider healthcare teams including speech therapists, dieticians, psychologists, consultant radiologists and chartered physiotherapists.

We have access to full diagnostic facilities including X-Ray, ultrasound, CT scanning and MRI and comprehensive physiotherapy services from assessment and care of children who require help to restore or improve their movement to full aftercare and follow up services.

If surgery is required, we do our best to minimise the stress and anxiety to the child and their family by establishing a seamless and integrated patient journey. Our patient rooms offer a comfortable and calm 'home from home' environment. Activities are available for children of all ages including colouring, activity books, TV and Wifi. Children can even drive themselves to theatre if age appropriate. Our nurses are on hand to actively care for children at all times.

One Stop Rapid Diagnosis Breast Clinic

Rivers Hospital's One-Stop Rapid Diagnosis Breast Clinic has been developed to help ease the anxiety of breast symptoms, such as the discovery of a breast lump.

Quality care

When your patient is worried about breast problems, whether they are found to be benign or cancerous, patients want fast access to expert advice. Here at Rivers Hospital, along with our dedicated multi disciplinary team of specialists are on standby to care for your patients specific needs.

On the spot tests

During your patients visit, they will be seen by a consultant breast surgeon. If necessary a digital mammogram and/or breast ultrasound will be carried out. Depending upon findings from the consultation and the diagnostic results, further tests such as a needle biopsy may be conducted. Typically a mammogram will not be offered to anyone under the age of 40 years due to the breast tissue being too dense, therefore your patient will be offered an ultrasound unless discussed otherwise by the consultant breast surgeon.

Results

In most cases the result will be available on the day, but occasionally further tests are needed to give a conclusive result. Support is provided by a breast care specialist nurse who offers emotional support and if necessary can guide your patient through the treatment options as well as providing ongoing care for patients who may require surgery.

Booking

The clinic is available to anyone with breast symptoms. Self pay patients can call to book an appointment directly. If your patients choose to use their private medical insurance then please advise your patient to get authorisation from their insurance provider before attending their appointment.

Appointments can be made by calling our bookings team on: 01279 602 675.

Prices

One stop breast packages range from £500 - £750 which includes an initial consultation with the consultant, this will include a mammogram/and or ultrasound. If a biopsy or further investigations are required then this will be discussed with your patient before proceeding further where additional costs will be applied.

Private Patient Manager

As Rivers Hospital is committed to the provision of a first class, high quality experience for all patients, we provide a Private Patient Manager service.

Our Private Patient Manager, Kim, is available throughout consultation, treatment and aftercare to offer a personalised service to each patient dependent on their needs and wishes. Kim is able to provide the vital link required between patients and their consultant facilitating a streamlined treatment pathway.

What our Private Patient Manager offers

Kim will:

- Be a point of contact for all private patients.
- Manage the private patient journey.
- Answer private patient queries within 24 hours Monday to Friday.
- Walk patients through the various stages of their private treatment and help with queries or concerns regarding referrals, insurance or anything else relating to their hospital stay.
- Ensure any special requirements are met before, during or after a patient's visit.

Business Development Team

In order to facilitate relationships between Rivers Hospital and the wider healthcare community, we have a dedicated Business Development Team working both in and around the Hertfordshire area. Their aim is to provide a personalised service for all referrers, ensuring they have an individual point of contact at Rivers Hospital. Being a dedicated Business Development Team they are happy to help with a variety of queries from patient referrals to education and training. Examples of these services are listed below. The Team are there to support all primary care referrers including GPs, Nurses, Practice Managers, Medical Secretaries, Physiotherapists and Optometrists etc.

What our Business Development Team offers:

- Lunch and learn educational sessions.
- Consultant-led training for professionals.
- Social events and GP networking opportunities.
- Medical secretary workshops.
- Online referral system support.
- GP referral literature and regular hospital updates.
- A direct liaison between referrers, consultants and hospital services.
