Acceptance Criteria for NHS Referrals at Springfield Hospital

We will treat all patients in a safe and appropriate environment depending upon age and any existing medical conditions. We are not contracted to treat:

- Patients under the age of 18 years
- A patient with incapacitating disease that is a constant threat to life
- A patient who has an unstable mental condition and is receiving psychiatric treatment
- The 28-day Faster Diagnosis Standard (FDS)

Other Information

- Our services are delivered at the National NHS tariff with no additional costs to patients or CCGs
- Free Hospital Parking (ANPR system is in place)

For more information on our NHS clinics and referral information and advice please contact our NHS Co-ordinators: 01245 234 151 / RHC.springfield-nhscoordinators@nhs.net

Private GP Services at **Springfield Hospital**

The Private GP Service situated within Springfield Hospital is staffed by seven GPs. It is the largest private GP service in Essex and is CQC registered.

They can offer same day appointments, be-spoke health assessments and a comprehensive travel medicine service including vaccinations, homeopathy, acupuncture and flu vaccines. They have fast access for cross referrals to diagnostics investigations and to see consultants.

Services offered:

- Same day appointments, evening appointments and Saturday appointments
- Bespoke health assessment/screening (18+ only)
- Comprehensive travel medicine service including vaccinations
- Homeopathy
- Acupuncture
- Flu vaccine
- Children's health
- Medicals for HGV and taxi drivers, visas, employment, performance and pre-sporting events
- Men's health check (prostate check with GP with PSA test or extended check-up including testosterone check)
- Women's health check (menopause & HRT assessment, 6 week baby & mother check-up, women's health assessment including smear test)
- Sexual health assessment

For more information, please visit the following website: privategpservices.co.uk
or call: 01245 234 134

Paediatrics at **Springfield Hospital**

Springfield Hospital offers a range of paediatric services including diagnosis, acute and complex medical care, surgery and support for children and teenagers up to 18 years.

Consultant paediatricians work in both inpatient and outpatient settings and are supported by a team of nurses and wider healthcare teams including speech therapists, dieticians, psychologists, consultant radiologists and chartered physiotherapists.

We have access to full diagnostic facilities including X-Ray, ultrasound, CT scanning and MRI and comprehensive physiotherapy services from assessment and care of children who require help to restore or improve their movement to full aftercare and follow up services.

If surgery is required, we do our best to minimise the stress and anxiety to the child and their family by establishing a seamless and integrated patient journey. Our patient rooms offer a comfortable and calm 'home from home' environment. Activities are available for children of all ages including books, painting, computers and TV and films. Our nurses are on hand to actively care for your child at all times.

Cancer Care (Oncology) Service

Springfield Hospital is an established provider of cancer services from screening and diagnostic procedures at a time convenient to you, and also offers treatment for some of the most common types of cancer. We offer the support of multi-disciplinary teams who will be working together to ensure you get the care which is right for you.

- Fast access to screening services
- Personalised one to one care
- Consultant led care
- Insurer accredited screening services

Screening services:

- Bowel screening
- Colorectal cancer screening
- Breast cancer screening
- Cervical cancer screening
- Prostate cancer screening
- Lung cancer screening
- Lymphoma screening
- Myeloma screening
- Leukaemia screening

Diagnostic tests:

- Radiology
- Endoscopy
- Blood tests
- PSA testing

For more information on our Consultants and to book a consultation with one of our Oncologists, please contact our premium bookings team on; 01245 234 040.

One Stop **Rapid Diagnosis Breast Clinic**

Springfield Hospital's One-Stop Rapid Diagnosis Breast Clinic has been developed to help ease the anxiety of breast symptoms, such as the discovery of a breast lump.

Quality care

When your patient is worried about breast problems, whether they are found to be benign or cancerous, patients want fast access to expert advice. Here at Springfield Hospital, along with our dedicated multi disciplinary team of specialists are on standby to care for your patients specific needs.

On the spot tests

During your patients visit, they will be seen by a consultant breast surgeon. If necessary a digital mammogram and/or breast ultrasound will be carried out. Depending upon findings from the consultation and the diagnostic results, further tests such as a needle biopsy may be conducted. Typically a mammogram will not be offered to anyone under the age of 40 years due to the breast tissue being too dense, therefore your patient will be offered an ultrasound unless discussed otherwise by the consultant breast surgeon.

Results

In most cases the result will be available on the day, but occasionally further tests are needed to give a conclusive result. Support is provided by a breast care specialist nurse who offers emotional support and if necessary can guide your patient through the treatment options as well as providing ongoing care for patients who may require surgery.

Booking

The clinic is available to anyone with breast symptoms. Self pay patients can call to book an appointment directly. If your patients choose to use their private medical insurance then please advise your patient to get authorisation from their insurance provider before attending their appointment.

Appointments can be made by calling our bookings team on: 01245 234 040.

Prices

One stop breast packages range from £500-£700 which includes an initial consultation with the consultant, this will include a mammogram/and or ultrasound. If a biopsy or further investigations are required then this will be discussed with your patient before proceeding further where additional costs will be applied.

Physiotherapy at **Springfield Hospital**

Springfield Hospital Physiotherapy Department is staffed by professional and experienced clinical Chartered Physiotherapists. We work to Chartered Society of Physiotherapy (CSP) standards supporting best practice and will strive to provide the best in patient care.

Springfield Hospital welcomes insured and self-funding patients for the following therapy;

- All musculoskeletal conditions
- Sports injuries
- Back and neck pain
- Sprains and strains
- Chronic pain
- Fracture rehabilitation
- Rheumatological symptoms including painful joints
- Pregnancy-related musculoskeletal pains
- Hand therapy
- Post-operative rehabilitation for orthopaedic surgery, breast and gynaecological surgery, and oncology conditions
- Respiratory problems
- Acupuncture
- Women's and men's health (incontinence)
- Shockwave therapy
- Fast access to diagnostics (e.g X-Ray/MRI/Pathology)

No GP referral letter required for self-funding patients.

For more information, please call our Physiotherapy department on; 01245 234 045.

Diagnostic Services Available at **Springfield Hospital**

Springfield Hospital Radiology Department offers a range of diagnostic tests from;

MRI	Ultrasound	X-Ray
CT	Mammography	Fluroscopy.

Our service is run by a friendly team of experienced, qualified radiographers. Images are reported on by a specialist consultant radiologist and the report is sent directly to the referring GP, consultant or AHP within 5 days. Radiology appointments can only be issued to the patient on receipt of a signed medical referral from the GP or IR(ME)R certified AHPs. The radiology form must be completed and signed for all private and self-pay radiology referrals and sent by secure email rhc.springfieldradiologyadmin@nhs.net. We do not accept direct NHS referrals.

For more information, please call our radiology department on; 01245 234 070.

Weight Loss Surgery at **Springfield Hospital**

Ramsay's expert weight loss specialists have helped change the lives of patients across the UK. Our support network will ensure you'll receive all the support and advice from our specialist nurses, dietitians and support groups to get the most out of your surgery.

Surgery options;

- Gastric Bypass
- Gastric Sleeve
- Gastric Band
- Conversion Surgery

More information on our weight loss surgery options can be found on:
www.springfieldhospital.co.uk/weight-loss-surgery

To book a consultation with one of our General Surgeons that specialise in weight loss surgery or for prices, please contact our bookings team on: 01245 234 040.

Private Patient **Manager**

As Springfield Hospital is committed to the provision of a first class, high quality experience for all patients, we provide a Private Patient Manager service.

Julia is available throughout consultation, treatment and aftercare to offer a personalised service to each patient dependent on their needs and wishes. She is able to provide the vital link required between patients and their Consultant facilitating a streamlined treatment pathway.

What our Private Patient Manager offers

Julia will:

- Be a point of contact for all private patients.
- Manage the private patient journey.
- Answer private patient queries within 24 hours Monday to Friday.
- Walk patients through the various stages of their private treatment and help with queries or concerns regarding referrals, insurance or anything else relating to their hospital stay.
- Ensure any special requirements are met before, during or after a patient's visit.

Julia can be contacted directly as follows:

01245 234 143

julia.pendered@ramsayhealth.co.uk

Business Relations **Manager**

In order to facilitate relationships between Springfield Hospital and the wider healthcare community, we have a dedicated Business Relations Manager working both in and around the Chelmsford area. Gemma's aim is to provide a personalised service for all referrers, ensuring they have an individual point of contact at Springfield Hospital. Being a dedicated Business Relations Manager she is happy to help with a variety of queries from patient referrals to education and training. Examples of these services are listed below. Gemma is there to support all primary care referrers including GPs, Nurses, Practice Managers, Medical Secretaries, Physiotherapists and Optometrists etc.

What our BRM offers

Gemma will provide:

- Lunch and Learn educational sessions.
- Consultant-led training for professionals.
- Social events and GP networking opportunities.
- Medical secretary workshops.
- Online referral system support.
- GP referral literature and regular hospital updates.
- A direct liaison between referrers, consultants and hospital services.

Gemma can be contacted directly as follows:
